

# THERMOSYPHON POT

## DIMENSIONS IN INCHES

Depending on the design, application and mode of operation, supply systems are required to flush, cool and pressurize mechanical seals and magnetic couplings and provide leakage compensation. **ETANNOR** supplies a complete range of solutions from a single source including design, production, commissioning and service. The portfolio includes a complete range of API compliant supply systems.

## QUENCH SYSTEMS

- Versions with polyethylene or stainless steel tanks
- API 682 versions
- Circulation of buffer fluid possible

## THERMOSIPHON SYSTEMS

- Comprehensive modularized product range
- Sterilizable versions
- API 682 versions for Plan 52 and 53A
